Re: Corroseal Rust Converter – USS Independence

Dear Mrs. Koleada,

As the contractor for the tank cleaning of the aircraft carrier USS Independence [CV-62], Puget Sound Naval Shipyard, Bremerton WA, we are pleased to report that Corroseal™ Rust Converting Primer is performing very well throughout this vessel. Our use of Corroseal™ has the full approval of the US Navy.

Thank you for the time you took to board the USS Independence last week to demonstrate the ease of use of Corroseal™ and safety features. Also thank you for taking the time to meet with the representatives of the general contractor George G. Sharp Inc. As per our conversation this morning, I inspected the work in progress and am very pleased with the results.

I would be most happy to recommend Corroseal™ Rust Converter Primer for use on future US Navy and other government projects.

With best regards,

Vic DeLeenheer
Regional Vice President
West Coast Cleaning & Preservation, Inc.
